## EDUCATION

### University of Maryland College Park

College Park, MD

*B.S. in Computer Science, Minor in Mathematics | GPA: 3.6/4.0*

*Sep 2022 – Present*

- **Courses:** Algorithms, Web Programming, Organization of Programming Languages, Computer Systems, Linear Algebra, Applied Statistics
- **Honors:** Dean's List

## EXPERIENCE

### Battalion Maintenance Specialist & Squad Leader

Dec 2023 – Apr 2025

*US Army Criminal Investigation Division (KATUSA)*

*Camp Humphreys, South Korea*

- Supervised the in-processing and training of newly assigned KATUSA personnel, ensuring compliance with ROK and U.S. Army standards, and led a 7-person team during daily physical training and evening roll call for operational briefings.
- Led the maintenance and readiness of mission-essential military vehicles by developing a new SOP, conducted monthly vehicle inspections, and managed M17/M18 and M4 weapons systems for U.S. Army CID operations.
- Served as the primary liaison and interpreter during joint investigations, bridging operational communication between U.S. Army CID, the Korean National Police, and the Korean Criminal Investigation Group.

## PROJECTS

### Timbre | *React Native (Expo), FastAPI, Supabase*

Jan 2026 – Present

- A mobile worship team collaboration app built with React Native (Expo) and TypeScript, featuring team management, weekly setlist creation, and real-time data sync via Supabase
- Designed and integrated a Python FastAPI backend that converts uploaded sheet music images to PDF and stores them in Supabase Storage, accessible to all team members
- Implemented end-to-end setlist workflow including automatic YouTube playlist generation from song reference links and in-app PDF viewer

### GhostDieDie | *React, Three.js, MediaPipe, WebRTC, FastAPI, Supabase*

Apr 2026 – Apr 2026

- Collaborated with a team of 4 to build a real-time, browser-based multiplayer webcam game using React Three Fiber, integrating WebRTC and WebSocket for live opponent streaming and game state synchronization.
- Ported the computer vision pipeline to JavaScript and optimized MediaPipe tracking from 33 to 13 key points, eliminating install requirements and reducing latency for lower-end hardware.
- Won Best Razzle Dazzle Hack at Bitcamp 2026 among 600+ participants.

### Personal Portfolio | *Next.js, TypeScript, Tailwind CSS*

Jun 2026 – Jun 2026

- Built a responsive one-page developer portfolio using Next.js App Router, TypeScript, and Tailwind CSS to present projects, experience, skills, and contact information.
- Implemented reusable components, structured project data separately from UI logic, and added interactive project detail modals with clean responsive styling.
- Added light and dark mode support, smooth section navigation, and polished UI states for a modern recruiter-friendly portfolio experience.

## TECHNICAL SKILLS

**Languages:** Java, C, JavaScript/TypeScript, OCaml, Rust, MATLAB

**Frameworks/Tools:** Next.js, React, React Native, Expo, FastAPI, Supabase, Git

## HONORS & INVOLVEMENT

**Army Commendation Medal (ARCOM)**
